Times change...

The need to market more effectively using interactive marketing tools has never been greater. The internet is the primary research tool in today's market and the demand for creative marketing solutions has increased. Today's consumers search for services using electronic media and spend more of their time networking online through internet communities than ever before. A smart organization that captures the imagination and interest of these tech-savvy consumers will gain the greatest market share.

interact

Get close...

The internet is a doorway to market to the broadest audience possible, while at the same time giving you the ability to easily target a particular market. Interactive, 360 degree virtual tour technology creates the impression of a 'personal touch' by offering an on-demand virtual visit of your facilities. Virtual tours are a compelling marketing solution that allows prospective patients, family members, and staff to move, click, drag, and zoom throughout your facility from the comfort of their own home.

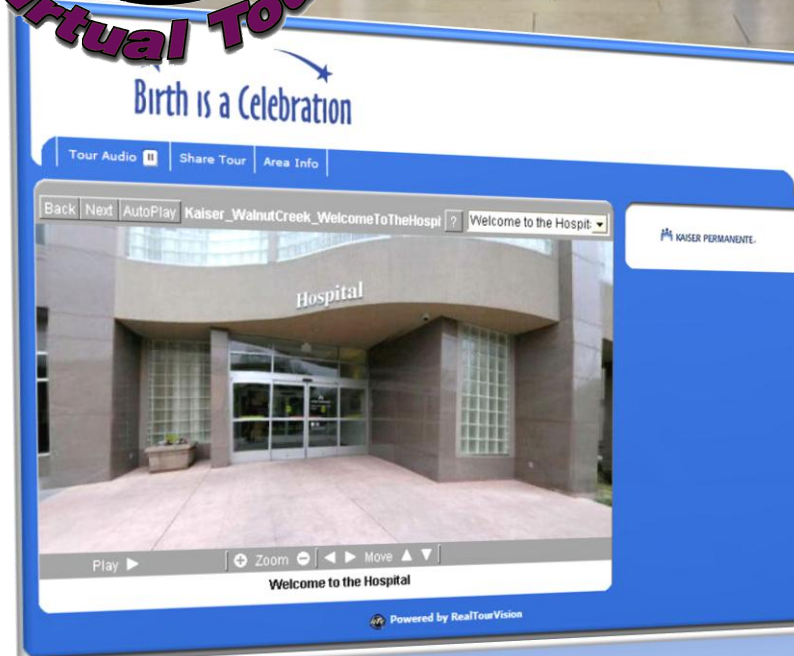

relax

Take the pressure off...

Selecting a facility for a loved one can sometimes be an overwhelming and emotionally draining task. Our virtual tour technology gives you the tools you need to educate your target market and make them familiar with your facility. This helps to comfort new patients and their family members by giving them a preview of what to expect prior to their arrival. Displaying an interactive virtual tour on your website will greatly enhance the visibility of your facility and help patients and their families make the right decision about choosing your services. Our virtual tours also double as a recruitment tool for new staff.

Interactive virtual tours are a powerful and cost effective way to reach out to consumers researching healthcare facilities. BlueLaVaMedia virtual tours harness the power of the internet and images to create an amazing tool for the greatest benefit of our clients.

BlueLaVaMedia interactive 360 virtual tours are loaded with great features that will drive more traffic to your website.
